

++ To Germany and back ++ Are you looking for an interesting job in an international context? Do you have Mongolian nationality? Have you worked in Germany or completed your education or training there, and are you now considering working in Mongolia?

Put your expertise to good use by tackling with global challenges and helping to bring about change. On behalf of our partner, we are seeking candidates for the following position, **to start as soon as possible**:

Researcher (m/f)

Employer

The Economic Policy and Competitiveness Research Center is a Think Tank NGO which was created under the auspices of the President of Mongolia. The members of EPCRC include prominent figures from both public and private sectors. Their vision is to enhance Mongolia's national economic competitiveness to enable a strong, sustainable business environment and socio-economic framework; one that improves the quality of life of all citizens. Mongolia has a number of clusters which bear high significance for development. The EPCRC has identified 5 clusters which have the potential to compete internationally including meat, cashmere, tourism, mining industry and knowledge based cluster such as ICT, biotechnology and a few others. They research and advocate on issues that directly affect Mongolia's ability to compete in a global economy. The EPCRC is looking for a returning expert to support them meeting this challenge.

Tasks

- + Support the EPCRC staff to implement a competitiveness research; to consult the management team on strategic research and planning.
- + Development of webpage and social networking.
- + Research and prepare materials for EPCRC staff, as needed, on various research jobs, products, services, and initiatives which have already been implemented in other domestic and international contexts.
- + Coordinate cooperation and establish good communications with different international organizations and projects on competitiveness, including macroeconomic policy.
- + Implementation of survey, external and internal economic environment researches.
- + Support the management with environmental analysis by strategy and business plan.
- + Assist the Centre in its day-to-day activities.
- + Report directly to Director of EPCRC

Requirements

You have gained a master degree with relevant coursework in economics. You have three years of work experience in research. You have already demonstrated your analytical skills. You have also proved your written and oral communication skills. Your strengths are in planning and in the attention to detail. Your working style is characterised by efficiency and result orientation. The ability to work in a multi-cultural team environment completes your profile as a returning expert.

++ One person can make a difference ++

Do you agree? Then we should meet.
